

Statstrip Glucose/Ketone Maintenance

Maintenance of all POCT equipment is an essential Infection Control measure and also ensures optimal functionality of each device.

The Statstrip Glucose/Ketone meters are extremely low-maintenance meters.

Daily

- Clean the meter between patients
 - Use a wrung-out hospital grade disinfectant wipe
 - Be careful not to get liquid inside the test strip port or on the charging contacts
 - Clean the barcode scanner with an alcohol wipe
 - Once completely dry, the meter can be docked
