SEMEN ANALYSIS POST VASECTOMY

Semen analysis for **Fertility** testing is only performed by Southern Community Laboratory - 114 Maraekakaho Rd, Stortford Lodge.

Please read their Patient Information sheet for more details.

Semen analysis post vasectomy - You should have already ejaculated at least 8 to 10 times since the surgery.

You should abstain from any sexual activity, including masturbation, for 3 days (but not more than 7 days), before collecting your sample.

Samples should be obtained by masturbation into a container given to you by your Doctor or the phlebotomist. Ensure the sample is labelled with your first name, surname and date of birth.

Should you be at all unsure what to do, please phone the laboratory or your local collection room.
